

Manager – IT

ABOUT US

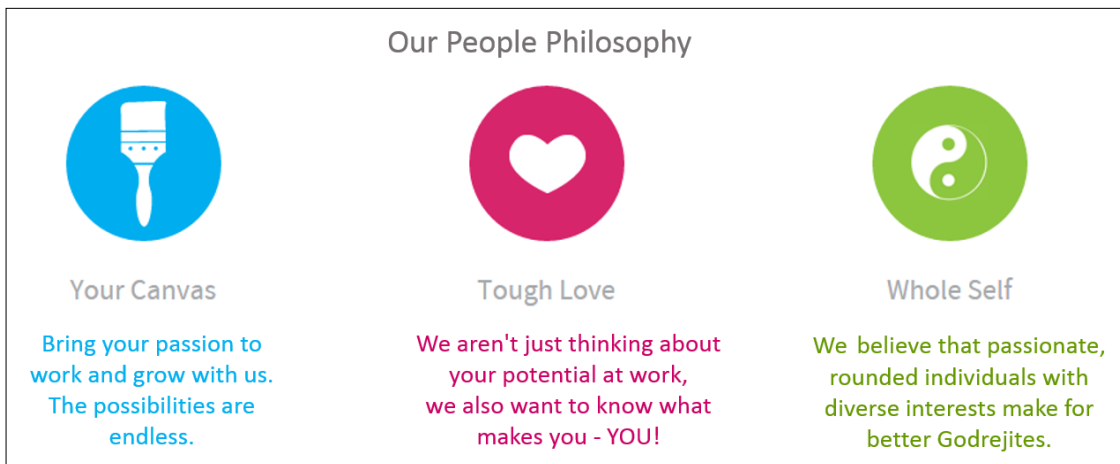

Godrej Consumer Products is an emerging markets FMCG leader. In line with our 3X3 approach to international expansion, we are building a presence in 3 emerging markets (Asia, Africa, Latin America) across 3 categories (home care, personal wash, hair care). Innovation is a key driver of our strategy and we are constantly looking to delight our consumers with exciting, superior quality products at affordable prices. We were the highest ranked Indian company on Forbes' list of The World's 100 Most Innovative Growth Companies 2015, for the second year in a row.

Why join us?

We promise Godrejites a culture of tough love; take serious bets on them and differentiate basis performance. We also understand that our team members play multi-faceted roles and so, we strongly encourage them to explore their whole selves.

Our canvas is growing. We truly believe that while our amazing past distinguishes us, we are only as good as what we do next.

We are looking for aspirational professionals who are motivated by innovation, creative thinking and collaboration.

TEAM STRUCTURE

You will join a team of some of the best and brightest who are working together to build a company and a brand that is making a difference in the world.

YOUR ROLE SUMMARY

This role's primary responsibility is to manage and support Web Application Development. You will be required to provide technology support to GCPL users for seamless functioning of Web Portals, SharePoint, MS Project and other Microsoft products such as Yammer/Lync. The job includes coordination with vendors and various internal functions implementing standard/custom-made applications.
